Dear Joe,

Re: Anti- Bio System

I would like to thank you for introducing me to the Anti Bio system displayed in your store.

We took a chance and had one installed by you after receiving your comments and advices. Since then we have noticed a significant improvement not only in the clarity and feel of the water, but can also honestly report a reduction in the time needed now to maintain the pool.

The need to backwash the filter has also been reduced, therefore saving the unnecessary wasting of water. We have also found that the water keeps its balance longer. Therefore, we are spending significantly less on chemicals.

We would certainly recommend an Anti Bio system to any pool owner and be happy to offer this letter as a testimonial.

Yours truly,

Ken & Jeanette Coutts
