

THE AUSTRALIAN  
**TECHNOLOGY**  
SHOWCASE

**The Water Treatment  
Technology developed by  
Anti Bio Technologies  
has been accredited to  
the Australian Technology  
Showcase since 2002.**

## **The Showcase is a joint State and Federal Government program designed to promote leading-edge Australian innovative technology globally.**

To become accredited to the Showcase this technology has demonstrated to an Independent Assessment Panel that it is:

- Clearly Innovative
- Scientifically Credible
- Developed with Significant Local Content
- Commercially Attractive
- Demonstrably Marketable and Exportable
- Socially and Environmentally Beneficial

Proudly supported by

**Queensland** Government
