**AntiBio**  
TECHNOLOGIES

The latest news from **Anti BioTechnologies**. Leaders in *Sweeping Sound Technology*

## OUR CHARITY WORK GROWS FOUR-FOLD.

“We’re not just about technology for resorts and homes, we believe in giving back. Our charity efforts this year have quadrupled from the 2017 amount, due mainly to our new products available to help communities. Including wellness, water treatment and termite control.”

The termites love wood and humidity. Unfortunately, this is the same environment you’ll find some of the most beautiful and sacred Buddhist temples in Thailand, and yes, they are made of wood. Our aim is to give back to the communities by donating and installing treatments which allow the monks and locals to simply live better.”

## THE FUTURE IS HEALTHY FOR ANTI BIO

Anti Bio is having great success in the wellness market. Reports from recent experimental health trials are showing positive results with feedback for an array of ailments. Naturally we are not able to market these claims yet, but are initiating research and further trials including performance data. Stay tuned!

**THE RESULTS ARE IN: Anti Bio Termite Control causing entire colonies to disappear, for good.**

**WATER TECHNOLOGY FOR HOME AND HOTEL: Our new units are designed for any size installation.**

**WE’RE HELPING PEOPLE LIVE HEALTHIER LIVES, AND REDUCING CHEMICALS... MORE INSIDE**

SOLVING EVERYDAY PROBLEMS, WITH TECHNOLOGY.

NEW PARTNERS IN THE USA, THE PERFECT MARKET FOR OUR ANTI BIO TECHNOLOGY.

Great news from our US partners as Anti Bio US gains pace, with initial market research showing market penetration in key areas. This is a positive outlook as we complete final permits and fees in various states. In addition, Mexico has become a front-runner in terms of potential sales.

This is no surprise, we have enterprising US partners with a healthy market for Anti Bio Technology products.

A COMPLETE CHEMICAL-FREE PRODUCT RANGE FOR HOME OR BUSINESS TREATMENTS  
We now have the most complete range of *Anowave@* technology in the world.

What's next:

- Multi-use products: **HomeSafe@**
- An app that can access, monitor and test products form any phone
- A new designer range of composite enclosures
- More compliance approval ratings obtained for the technology use (opening new markets)
- New partners announced: **Anti Bio UK** launch coming soon

OUR TECHNOLOGY IS MAKING WAVES AROUND THE WORLD

“After successful installation of the TOG System, the pumps had zero downtime until today. Initial plan to clean the caissons every two years is now not necessary...”

Ruzlan Bin Hashim  
Manager, Petronas  
Carigali Sdn Bhd

Global Oil leader Petronas recently placed additional orders for TOG Technology to Telfertech Sdn Bhd. More than 7 units in the last 2 months alone have been purchased and more are expected during this year. Additional sales have been driven by the excellent results showing great cost-savings through low-maintenance and minimal chemical usage.

Mexico has been put onto the Anti Bio map with some immediate developments, with several applications including dairy, water and beer. Our products are now in over 22 countries.

Laos & Thailand have recently experienced an increase in demand for the termite system, where several large properties have been installed, covering several hundred meters.

*Soi Dog Foundation* in Phuket was recently installed with Anti Bio Termite technology and water treatment systems to compliment their expanding development.

Prawn & fish farming businesses of all sizes have also been benefiting from Anti Bio water treatment, as well being as sold as a commercial application, improving traditional management.
